Date: 19.02.2018

STAMICARBON SIGNS CONTRACT TO LICENSE A UREA PLANT IN BRUNEI.

Sittard, The Netherlands, Stamicarbon, the innovation and license company of Maire Tecnimont Group, has signed a license agreement for the construction of a greenfield urea melt plant owned by Brunei Fertilizer Industries SDN BHD, which will be located at Sungai Liang Industrial Park (“SPARK”), Brunei Darussalam.

Brunei is one of the world’s largest producers and exporters of natural gas. The new plant project will support the government’s long-term development strategy to diversify the country’s economy by the development of downstream activities in the petrochemical industry.

The urea plant will have a name plate capacity of 3900 mtpd and will utilize Stamicarbon’s LAUNCH MELT™ Pool Condenser Design, which features Stamicarbon’s unique Pool Condenser equipment and the complete synthesis section in Safurex® stainless steel. Although Stamicarbon has urea plants in operation at higher capacities, this is the highest name plate capacity for a urea melt plant that has been licensed by Stamicarbon. Moreover, this project will reinforce their market position and growth in the Asia Pacific region.

The scope of the contract consists of a License, Process Design Package (PDP) and Proprietary Equipment for the urea melt plant. Start-up of the plant is planned for 2021.

Stamicarbon B.V.

Stamicarbon, part of Maire Tecnimont Group, is a global leader in the design and project development of chemical plants and licensing of technologies as well as a supplier of high-end equipment and services for the petrochemical industry. This leading position is based on 70 years of experience in licensing and is maintained by its continuous innovations in technologies, products and materials. A pioneering company specialized in the fertilizer industry with a vision to help enable the world to feed itself and improve quality of life. It has licensed more than 250 urea plants and realized more than 90 revamping and optimization projects. The Stamicarbon headquarters is located in Sittard, The Netherlands with representative offices in Russia (Moscow) and China (Beijing). For more information: www.stamicarbon.com

Maire Tecnimont S.p.A.

Maire Tecnimont S.p.A., a company listed on the Milan Stock Exchange, leads an industrial group (Maire Tecnimont Group) playing a major role in the international Engineering & Construction (E&C), Technology & Licensing and Energy Business Development & Ventures markets, with specific competences in plant building, particularly in the hydrocarbons segment (Oil & Gas, Petrochemicals and Fertilizers), as well as in Power Generation and Infrastructures. The Maire Tecnimont Group operates in approximately 40 countries, through about 50 operative companies and a workforce of

about 5,400 employees, along with approximately 3,000 additional Electrical & Instrumentation professionals. For more information: www.mairetecnimont.com.
