

## Stainless steel package solutions

brought to you by Sandvik.

Supplied within 24 hours from stock.

Sandvik is able to offer a package building service designed to help customers with their specific project requirements in a range of industries - including oil & gas, nuclear, petrochemical, refinery and desalination.

We are able to supply a very wide range of stainless steel products, including tube and pipe, fittings and flanges, solid bar, billets, hollow bar, strip and wire in one of the world's most comprehensive ranges of stainless steels and nickel alloys.

We supply material in austenitic grades: 304/L and 316/L and majority of products in duplex grades **Sandvik SAF2205**, Super Duplex **Sandvik SAF2507** and **Sandvik \*254 SMO (UNS31254)**.

*\*254 SMO is a trademark owned by Outokumpu Oy.*
