

## We are at 2000 Round Table Discussions!

UreaKnowHow.com has reached the impressive milestone of 2000 Round Table discussions. 2000 active Round Table discussion with totally more than 9500 posts or an average of 5 posts per discussion and 2-3 new posts per day. This means everybody who posts a question, for sure will get a reply making the UreaKnowHow.com Round Tables a very valuable information source and place to share experiences.

We thank all participants for their valuable contributions and support and like to highlight and thank very much the 10 most active participants:

- ❖ Prem Baboo, Dangote Fertilizers Projects Nigeria
- ❖ Norozipour, Khorasan Petrochemical Company Iran
- ❖ Muhammad Farooq, SABIC Agri-Nutrients Co. Saudi Arabia
- ❖ Majid Mohammadian, OCI The Netherlands
- ❖ Muhammad Kashif Naseem, SABIC Agri-Nutrients Co. Saudi Arabia
- ❖ Muhammad Adnan Hanif, FFC Pakistan
- ❖ Girish Prakash, Yara India
- ❖ Ahmed Selim, AlexFert Egypt
- ❖ Salam Malih, North Fertilizer Iraq
- ❖ Ali Salman Bokhari, Agritech Pakistan

Find below an overview which category the urea related Round Table discussions cover.

The 25 most active Round Table discussions are:

1. High Efficiency trays for reactor (63 replies)
2. Plant load and biuret content in final product (41 replies)
3. HP Stripper cleaning (40 replies)
4. Sulfuric acid injection in urea melt (32 replies)
5. CO2 absorber in Saipem urea plant (31 replies)
6. Prill buckets (30 replies)
7. Case study of CO2 compressor (28 replies)
8. CO2 compressor capacity limitation (27 replies)
9. Urea carry over from top of rectifier column (26 replies)
10. Urea process passivation and heating up rates (25 replies)
11. Rectifying column heater perforated plate versus orifice plugs (24 replies)
12. Material balance (24 replies)
13. Urea melt pump damage (24 replies)
14. Pressure safety valve experiences (24 replies)
15. Rise in stripper outlet temperature (23 replies)
16. Explosivity off-gas MP inerts washing tower (23 replies)
17. Temperature in top HP scrubber (22 replies)
18. The best stainless steels for urea (21 replies)
19. How to strengthen the prill product (21 replies)
20. Choking in rectifier column heater (20 replies)
21. Lump in top of evaporator separator (20 replies)
22. Deblocking of pipelines after a shut down (20 replies)
23. On stream times HP pumps (20 replies)
24. Urea build up on scraper arms (20 replies)
25. Compare Stamicarbon – Saipem – TEC process (20 replies)

Discussing and exchanging all these experiences with each other between our 7000+ Members representing all urea plants will definitely improve the Safety and Performance of all urea plants worldwide.

We thank very much all our Sponsors for supporting us and making this initiative possible.
